SOFTENER LES

LES PLATINUM LINE

Environmentally Friendly

Softened water keeps your household appliances running efficiently, reducing energy usage and decreasing repairs and replacement. For example, without a system like this, the carbon footprint of your gas water heater could increase 4-18%.

Availability in Standard & Cabinet Models

We understand that homes come in all shapes and sizes. To ensure that we provide you with the best fit for your home, we offer our softeners in standard two tank units and space saving cabinet models.

SOFTENER LES

BRINGING YOU ADVANCED TECHNOLOGY AND ENHANCED PERFORMANCE, OUR LES PLATINUM LINE SOFTENER REMOVES UNWANTED HARDNESS AND MINERALS FROM YOUR HOUSEHOLD WATER.

HOW IT WORKS:

1. Untreated water enters the LES Platinum Line Water Softener and flows through the resin.
2. Hardness is removed via ion exchange.
3. Treated water enters your home free of hardness that causes scale.
4. The LES Platinum Line Water Softener will calculate the appropriate time to regenerate, cleaning and recharging the resin, so that it can continue to remove contaminants to incoming water.
